| <i>Sherpa Pink Himalayan Salt</i> | Pink Himalayan Salt is mined from ancient sea beds deep in the Himalayan Mountains. It is completely unrefined and comes to you in its natural raw form. This salt was formed over 200 million years ago in primeval sea where the first sign of life formed in the mineral rich waters. Because of its location & how it was formed it is extremely pure and free of pollutants. It gains its pink color from the high content of iron, however it also contains trace amounts of 84 minerals and elements including magnesium, calcium, iodine, zinc & sodium. It has long been used in warm water as a holistic treatment for poor circulation, high blood pressure, dry damaged or irritated skin, muscle soreness, joint pain, and for detoxification. Add 1/2 to 1 cup warm water, soak for 20 minutes |
| <i>Muscle Soak</i> | Harvested from the Dead Sea, these salts are known for their rich concentration of active minerals which can help for deep relaxation, skin conditioning, and providing natural relief from Psoriasis. Premium Epsom salts are added to aid in sore muscle relief. These salts are enriched with essential oils for deep tissue relief. Add 1/2 to 1 cup to warm water, soak for 20 minutes |
| <i>Premium Epsoak Salts</i> | Epsoak salt is a pure mineral compound in crystal form. The crystals are formed from evaporated brine pools in the earth's crust. They are known for easing stress and improving sleep & concentration. They help muscles and nerves function properly, regulate activity of 325 + enzymes, help prevent artery hardening and blood clots, make insulin more effective, reduce inflammation and relieve pain and muscle cramps. Don't mistake these salts for the "Drug Store Epsom" salts. These salts are hand harvested and sun dried so that they retain 100% of their mineral content. These salts are also known to help with fibromyalgia. Add 1/2 to 1 cup to warm water, soak for 20 minutes. |
